Raj Bhar Engineering

Date posted
October 7, 2025

Description

Our Company is looking for HSE Officer, who is responsible for identifying, assessing and advising on risks arising from the workplace or work processes, recommending measures to eliminate or minimise and control the risks and implementing the measures.

Responsibilities

- Leading a team of 4-5 people.
- Work preparation and execution by the best industry practices and safety regulations.
- Safe execution of the work assigned by the Foreman related to the erection of static and rotating equipment.
- Cooperate with the riggers to choose appropriate lifting devices in compliance with the mechanical and vendor drawings.
- Perform elevation and coordinate checks, preparation of lifting surfaces, and shimming at the given elevation.
- Perform pre and final alignment of motors-pumps.
- Perform verticality checks and produce reports.
- Perform flanges parallelism.
- Flange cleaning and preparation, proper bolting sequence, and application of required torque values, if applicable by the specification.
- Identify temporary gaskets and spades installed on equipment nozzles and report production.

Qualifications

- HSE Qualification
- Relevant work experience minimum 3-5 years. CV with a detailed list of completed projects required.
